

Creating Github Repository

Date:17-08-2020

Venue/ Mode: WhatsApp group chatting and Normal group call

Attendance:

J v Sathya Krishna	Present
M Sindhuja	Present
Sneha mol	Present
M Aishwarya	Present
Gummadi Avinash	Present
E Pavan	Present

Notes

- Created Github Repository
- Confirmation of project idea
- Confirmation of team roles

Decisions

- Everyone is interested to work on Online Voting System for college so we finalized it and informed it to mam
- Then Krishna created GitHub Repository “ Online Voting System” and sent to mails to everyone to accept the invitation and everyone joined.
- According to everyone intrests and knowledge we decided work roles for the project:
 - Krishna- Team leader, Backend developer, Frontend developer
 - Sneha – content writer, Backend developer
 - Sindhuja – Test Leader, Frontend developer
 - Avinash - Test Programmer, Frontend Developer
 - Pavan – Content writer (Helper), Frontend developer
 - Aishwarya - Test Programmer, Frontend Developer

Action items

We completed every work till date. So we don't any works to do so no actions of the future meetings.

Follow-up meeting schedule

Future meeting will be mentioned in the whatsapp group.
