Implementation

Date: 04-09-2020

Venue/ Mode: WhatsApp group chatting and Normal group call

Attendance:

J v Sathya Krishna	Present
M Sindhuja	Present
Sneha mol	Present
M Aishwarya	Present
Gummadi Avinash	Present
E Pavan	Present

Notes

- Team leader, Krishna said to start implementation and he said to design login page

Decisions:

- Sindhuja designed login page for users and it was good.
- And krishna developed a registration page and same styling is used in the login page too.
- Krishna asked to add some stylings to it and they both concurrently worked and designed login page.
- Krishna and sneha discussed about the database design and what tables, fields should be added to the database
- After discussing a while they think they now the requirements clearly, so krishna assigned work to every one to collect the requirements for other and it will discussed and will be finalized in the next meeting
- And then krishna kept the asking the work process of the other members
- Avinash has a problem with his laptop so he didn't contribute but still he is giving he idea personal to everyone.
- Pavan and Aishwarya keep learning and refreshing their concepts

Action items

- Complete data base structure should be done by the krishna and sneha
- Every one should collect the requirements from 3 to 4 members and should the points and should be discussed in the next meeting
