Date: 18-09-2020

Venue/ Mode: Google meet

Attendance:

J v Sathya Krishna	Present
M Sindhuja	Present
Sneha mol	Present
M Aishwarya	Present
Gummadi Avinash	Present
E Pavan	Present

Notes

- Discussed about template of SRS document.
- And points to write in SRS document.
- Team leader Krishna, divided the work among group members.

Decisions:

- First, we did a recap of the requirements which was collected from the students which was discussed in last meeting.
- Krishna started saying the points that should be wrote in each part of the SRS document. Later sneha and sindhuja are also contribute a lot for making the points.
- As we mentioned krishna started with the introduction part and we had a decision about it later we had about the functional requirements first krishna had said his points and then sindhuja added some points to it while coming to the External interface requirements and other non-functionalities most of the points are said by the sneha.
- As we have the database structure early it made our work easier. As we did the layout initially so we had clear idea what to implement and the what are the functionality of the system. And some requirements like biometric cannot be implemented in short period of time, so we decided it implement later.
- We discussed the features of the system.

Action items

- The following members should complete this work:
  - ➢ Krishna, Introduction part, revision history.
  - ➢ Sindhuja and krishna, Overall description.
  - ➢ Sneha, External Interface Requirements
  - ➢ Sindhuja and Krishna, System requirements
  - ➢ Aishwarya, Avinash and Sneha, Other Nonfunctional Requirements
  - ➢ Pavan and Sindhuja, Other Requirements
